Counseling Services Policies and Information

This document contains information about professional services and business policies of the Counseling Program at Spectrum Youth & Family Services. Please review it carefully as you will be asked to sign a form indicating that you understand the policies.

Description of Services

The Spectrum Counseling Program is committed to serving all persons without regard to race, color, religion, national origin, gender, gender identity, sexual orientation, age, physical disability, and marital or civil union status. Under the Americans with Disabilities Act, Spectrum will consider reasonable accommodation whenever possible for all persons. However, accommodations made must not impose undue hardship on Spectrum Youth & Family Services, in conformance with state and federal laws.

The Spectrum Counseling Program promotes and provides individuals and families with supported opportunities for growth and change. Counseling is cooperative effort between the client and counselor and may involve the discussion of material which is upsetting in nature, but in which may help you resolve your problems.

Counseling Program Services include outpatient counseling for adolescents, young adults from the ages of 14 to 26, and their families. We serve clients who are of the ages mentioned previously and/or be parents of individuals in that age range, and who meet the ASAM (American Society of Addiction Medicine) guidelines pertaining to outpatient counseling (Level One). Length of treatment is generally a minimum of 3 to 5 sessions in order to complete Informed Consent and Orientation, Screening, Assessment, Recommendations and Feedback. Further brief treatment if indicated can be an additional 5 to 20 sessions depending on the chronicity and severity of the presenting problems and client motivation. However, length of treatment is determined by ASAM criteria, and should the assessment indicate the need for a higher level of care, then a referral to those services would be made in the recommendation and feedback session.

The Spectrum Counseling Program is grounded in the Youth Development model, which is a strength-based approach, and is committed to “evidence-based best practices” as part of our overall mission. We believe that substance use and mental health issues are inherently linked and should be addressed in a comprehensive and integrated approach. We believe that individuals are connected to family groups, biological or otherwise, and that family work is an important part of counseling adolescents. The individual adolescent and young adult treatment approach is primarily based on Cognitive Behavioral Theory and family treatment is primary based on Behavioral and Contingency Management Theory. Skills training and parent education are integral components of our counseling service. Coordination with primary care/ physical health care is also strongly recommended.

We provide the following services:

- Assistance in Accessing Medicaid and Assistance in Accessing Other Entitlements and Services
- Screening & Assessment for Substance Abuse and Mental Health Problems
- Individual Substance Abuse & Mental Health Counseling, Relapse Prevention, Aftercare/Recovery
- Psychiatric Evaluation & Consultation

- Educational/Vocational Services
- Coordinated Health Care through the Pearl Street Youth Clinic
- Family Counseling/ Parent Education

Fee and Insurance Reimbursement Information

Spectrum has funding to serve uninsured clients. Spectrum is also an approved Medicaid provider. Currently, Spectrum is an approved Blue Cross/ Blue Shield, Magellan, MVP, Aetna and CBA provider. Our staff will assist in determining your eligibility and your medical coverage options. If you are uninsured, and do not meet the qualifications for funding sources we have available, we have a sliding scale fee available upon request. If it is determined that you will be on a sliding scale fee, then you will be responsible for the designated amount each session.

The published rates are as follows: initial diagnostic evaluation is \$200.00, 45-50 minute individual session is \$125.00, and group counseling is \$50.00 per session. Your insurance will be billed directly if we are contracted providers with your insurance company, and you are responsible for paying any co-payments at the time services are rendered.

Cancellations/Missed Appointments/Late Policy

- Please call 24 hours in advance if you need to cancel your appointment.
- Call as soon as possible before or after the appointment if there is a personal or family emergency that caused you to miss your appointment.
- If you do not call and do not show up for your appointment and you do not call within 24 hours, we cannot guarantee future appointments.
- If you are more than 15 minutes late, your therapist may need to reschedule your appointment.
- You are allowed to cancel up to three appointments per year (either with 24 hours' notice or within 24 hours after the appointment if there is an emergency). If you have to cancel due to an extenuating circumstance, please discuss this with your counselor. If you cannot meet this standard, referrals may be made for counseling with another therapist in the community. Your year is determined by your anniversary date of your first therapy session. The purpose of this policy is to ensure the best care for you.

Consent and Agreement to the Use and Disclosure of Health Information for Treatment, Payment, or Healthcare Operations

I understand that as part of my care, Spectrum Youth & Family Services originates and maintains records which may describe my health history, symptoms, examination and test results, diagnoses, treatment, and any plans for future care or treatment. I understand that this information serves as:

- A basis for planning my care and treatment
- A means of communication among the professionals who contribute to my care
- A source of information for applying my diagnosis and information to my bill
- A means by which a third-party can verify that services billed were actually provided
- A tool for routine healthcare operations such as assessing quality and reviewing the competence of health care professionals and the services that are offered.

I have been provided with a *Notice of Privacy Practices* that provides a more complete description of information uses and disclosures (release of, or access to, your information). I understand that I have the right to review the notice prior to signing this consent. I understand that Spectrum reserves the right to change their notice and practices. However, prior to a material change taking effect the agency will publish an announcement of the change at every agency facility, on its website, and in the local paper. I understand that a new notice will be distributed to me.

I understand that my records are subject to confidentiality imposed by state and federal regulations. I also understand that alcohol and drug abuse client records are protected by 42CFR part 2, and that records may not be released or disclosed without my written consent unless otherwise provided for in the regulations.

I understand that I have the right to request restrictions as to how my health information may be used or disclosed to carry out treatment, payment, or healthcare operations. I understand that the organization is not required to agree to the restrictions requested, however if Spectrum agrees to the requested restrictions, they are bound by our agreement.

By signing this form, I consent to the agency's use and disclosure of protected health information about me for treatment, payment, and health care operations. I understand that I may revoke this consent in writing, except to the extent that the agency has already taken action based upon my prior consent.

Confidentiality

Your confidentiality is important. Federal (42 CFR, Part 2 for substance abuse related issues) and State laws protect the release of confidential information. No information can be disclosed to anyone outside of this practice without your written consent except in certain cases, such as the following where counselors are mandated to report to appropriate agencies or individuals:

- 1.) Vermont law requires counselor to report actual or suspected cases of abuse involving children and vulnerable persons including the disabled and elderly.
- 2.) Counselors will take appropriate actions if you are in imminent danger to yourself or others.
- 3.) Counselors reserve the right to disclose to appropriate personnel credible threats of violence or harm made against identifiable victims, including persons and property.
- 4.) On rare occasions, counselors may be required to comply with a court-ordered subpoena to testify or provide records.
- 5.) Counselors may need to convey medical information about you in an emergency situation.

In addition, counselors may need to relay diagnostic and treatment plan information to your insurance company in order to obtain authorization for services, payment and to comply with regulatory health care operations such as quality improvement activities.

Minors

We will discuss with you what kind of information you would like us to share with your parents. In certain cases, you may not need to have parental consent for mental health or addiction services. We will need to determine this on an individual basis, and we urge you to discuss this issue with your counselor or therapist. In certain instances, we may need to relay information to your parents in cases of emergencies (medical emergencies, suicidal issues or attempts, drug/alcohol overdoses, for example).

Office of Professional Regulation

The Office of Professional Regulation provides Vermont licenses, certifications, and registrations for over 37,000 practitioners and businesses. Thirty-nine professions and occupations are supported and managed by this office. A list of professions regulated can be found at <http://vtprofessionals.org>

Each profession or occupation is governed by laws defining professional conduct. Consumers who have inquiries or wish to obtain a form to register a complaint may do so by calling (802) 828-2363 or by writing the Secretary of State's Office of Professional Regulation at 26 Terrace St., Montpelier, VT 05602-2972.

Upon receipt of a complaint, an administrative review determines if the issues raised are covered by the applicable professional conduct statute. If so, a committee is assigned to investigate, collect information, and recommend action or closure to the appropriate governing body.

All complaint investigations are confidential. Should the investigation conclude with a decision for disciplinary action against a professional's license and ability to practice, the name of the license holder will then be made public.

Disciplinary action through the Office of Professional Regulation ranges from reprimand to revocation of license but does not involve financial compensation or restoration, with some exceptions. Financial restoration can be pursued through private attorneys, small claims courts, or other available remedies.
